## FLAME OF BURNING FIRE

### FLAME FOR ETERNITY

Together we stand and look at each other  
We lead a whole life already as brothers  
Everyone finds his way to bother  
Although it was hard we never lost each other  
...we never lost each other!

Now we are here to hold the fire  
We are the friends to hold the flame high  
We stick together - for all time

Flame for eternity

Now we are here to hold the fire  
Now we are here to hold the fire  
Now we are here to hold the fire  
We keep the faith together all time  
We stick together - for all time

Flame for eternity  
for all time  
Flame for eternity
