

# EXHAUST

## FLAME OF BURNING FIRE

### LAUNCHING OVERDRIVE

Reporter:

We are at the international speedway at the Bonneville salt flats and these guys are making big things happen. They're actually writing history today!

They wanna do the impossible, hunt Mach 1 and wanna break the sound barrier - not with a jet, but on the ground, with the supersonic rocket car called Thunderstruck.

Preparations are in full swing as dusk dramatically illuminates the scenery.

Pilot:

I imagine the start sequence  
The race track right in front of me  
I'm waiting for the sign  
Jet propulsion engines roar  
Control buttons light  
Mach 1 ahead ...accelerate  
...accelerate  
...accelerate!

We're launching overdrive!

There's only one way to rock it!
