

# EXHAUST

## FLAME OF BURNING FIRE

### NEW TOMORROW

You don't need anyone in control  
And you don't like to play a role  
You love to be yourself again  
And so you bring it to an end

I - I got a new tomorrow  
I got my life renewed  
I - I got a new tomorrow  
I got a different view

The world was huge when we were young  
And the discovery was fun  
But now our world has come undone  
There's only one way left to run

I - I got a new tomorrow  
I got my life renewed  
I - I got a new tomorrow  
I got a different view

I - I got a new tomorrow  
I got my life renewed  
I - I got a new tomorrow  
I got a different view
