SOS ENDURANCE - PART III

We are trapped in the ice, but we could have foreseen | Ice warning
Antarctic winter arrived too fast ... for us
Five months without sun – At the coldest spot – In a frozen world
Breaking ice below – Loud moans and groans – We must fear for our lives

**Now she is gone and we are left here all alone
We will no longer ride the waves through ice and snow
Imperial Trans-Antarctic Expedition fails
„Endurance“ gone and we are
Left alone – in ice and snow
„Endurance“ gone – on ice alone**

It was an an epic adventure to be part of the crew | Outstanding
We wanted to be the first to cross Antarctica
But it got cold and colder – And the ice got more – But we had to go on
And now we're frozen like an almond in the middle of a chocolate bar

**But she is gone and we are left here all alone
We can no longer ride the waves through ice and snow
Imperial Trans-Antarctic Expedition fails
Now she is gone and we are
Left alone – in ice and snow
„Endurance“ gone – on ice alone**

SOS – I save your lives!

Save our souls – Drifting on the ice
Save our souls – We ride on frozen Ground
SOS – I will bring you home!
Save our souls – We drift on frozen ice
Save our souls – We ride on frozen Ground

Our only chance is taking the boats to reach the Shetland Islands!

28 souls in your responsibility.
