

EXHAUST

RIDE ON FROZEN GROUND

AGENTS OF DESTINY

[ZAPPO]

Careful careful!
They are listening to every whisper
Careful careful!
They are hearing every word you say
I don't know you – but I watch you
I'm on duty – any time you're there
You don't know me - but you feel me!

Your private room is not that safe
Got ravens sitting in your attic
Drawing the floor plan of your rooms
They see exactly where you move

Be sure, we're there recording anything you do
We watch, observe
know every movement of you
Be sure, we hear
capture every word you say
Be sure, we know
subversive actions that take place

You use computers and you love
to stay in touch with all your friends
The data glasses help you find
your way into the magic web

Enter your data and don't care,
you've got nothing to conceal
The programs help you to evolve
and have success in daily life

We're here, help you
finding everything you need
We love your quest
using our search engine
Be sure, we're there
recording anything you fake
Be sure, we know
subversive actions to take place

Careful careful!
No trespassing, don't you dare
Careful careful! Violators prosecuted

We thank you, dear ...to be this coope-
rative
Don't dare to look ...behind the heavy
curtain
We are the ones ...you have been look-
ing for
We are the ones ...the agents of your
destiny
