

EXHAUST

RIDE ON FROZEN GROUND

FREEDOM CLIMBER

[ZAPPO]

We're coming out of nowhere
Our only chance is elsewhere
It seems our only hope is entering into the
great blue sea

We were down there to dig in mines
Now we are fugitives, no rights
Desperation is a mighty friend of mine

**Freedom Climber Freedom Climber
I will not obey We will break this wall
I will climb this ladder And the world will listen
I'm not here to stay We will never fall**

We are the homeless and the wild
and we're on our way at night
We are ready for the fight for freedom
Fighting demons of the past,
this slavery won't last
One day we're coming back here with a blast
The borders separate me
from every step to my success
I won't accept the chains on hands
and feet against humanity
Now I can see the future – a new world is rising
In my dreams are freedom and equality

**Freedom Climber Freedom Climber
I will not obey I was born this way
I will climb this ladder And we will not listen
I'm not here to stay We can never fail**

Breakup Breakup! To the land of the free
Breakup Breakup! To the home of the brave

**Freedom Climber Freedom Climber
I will not obey We will break this wall
I will climb this ladder And the world will listen
I'm not here to stay We will never fall
Freedom Climber Freedom Climber
I will climb this ladder We can never fail...!**
