

EXHAUST

SECRET OF THE SANDS

INTERCEPTOR 2.0

[ZAPPO]

When you're flying over his land
Your destruction is in his hand
He's controllin' the air above
No scruples, you know he's tough
He's ready to kill someone like you...

And when you know that he comes
you'll see there's no chance
to escape with your life and flee
With his instinct of death
he will take your breath
and he'll hit your mind
he's there....

Interceptor - he's gonna get ya!

You know there's danger
behind your back
Atomic weapons are staring at your neck
They say, he's a fighter for peace
Who gets the enemies down on their knees
He defends the society, people like you...

And when you know that he comes
you'll see there's no chance
to escape with your life and flee
With his instinct of death
he will take your breath
and he'll hit your mind
he's there....

Interceptor - he's gonna get ya!
