## SECRET OF THE SANDS

### INTO THE SUN

Side by side we're rolling on the rail  
To kick our hearts to heaven  
You grab my hand  
Looking full of expectation

Side by side we run away from hell  
To find our place in heaven  
In my arms  
You can rest forever

You lift me up  
You bring me down  
You make my head go round and round  
I'm driving you  
right into the sun

You and me  
we'll shadow the sun

You lift me up  
You bring me down  
You make my head go round and round  
I'm driving you  
right into the sun
