

EXHAUST

SECRET OF THE SANDS

A SONG FOR YOU

For twenty years I stood aside, nobody looked at me,
But now I'm aged as I look back, I always did it my way

I like you listening to me, although you might think it's scrap,
You look at me, you download me, I'm waiting in the web

But in the night I am a song for you - just click on me
On your coloured screen I make your dreams come true - a song for you

It was a struggle to survive on a hard disk drive,
The lyrics and the sound concept completely been renewed

But finally my time has come, I hope you like my sound,
So everyone can hear me now another time around

But in the night I am a song for you - just click on me
On your coloured screen I make your dreams come true - a song for you

I was made for rocking you and keep your hands in the air
I'm still here, if you like me, together we'll be there

I'm getting old, soon I am done, but having trust I am the one
I am uploaded to the web and try to take the world

But in the night I am a song for you - just click on me
On your coloured screen I make your dreams come true - a song for you

[ZAPPO | BORSTEN]

if you were a song, this is what you'd sing
