

EXHAUST

SECRET OF THE SANDS

THE BEACH (EVE OF THE RACE)

[ZAPPO]

You got the fire
I got the ice
We're going down to have a party on the beach

On the beach
On the beach
We're going down to have a party on the beach

You bring the blanket
I got the cool music here
We're going down to have a party on the beach

The sun goes down
The guitar is passed around
We love to live our life
at night here on the beach

On the beach
On the beach
We're going down to have a party on the beach

Come closer to the fireplace
The flames are flickering in your face
We lie down to wait for the sand race
Tonight under the stars

getting together on the eve
of the grand sand race...
